Project Planning Meeting

Project Planning Meeting

Step 1: Each team chooses a role for each member (Example: Project Manager, Backend Developer, Frontend Developer, QA Engineer, UX Designer).
The teacher assigned the description of the project they are going to plan.

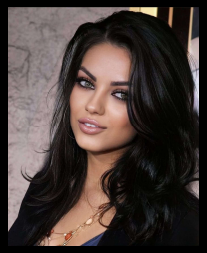

Roles

Scrum Master

Coordinates the team and assigns tasks, and sets deadlines.

UX/IU Designer

Creates the visual design of the app or web page.

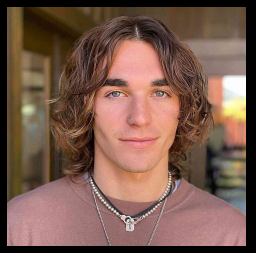

Tester

Tests the software for bugs and improvements, and reports bugs.

Backend Developer

takes care of the server and database logic.

Frontend Developer

Designs and develops the user interface.

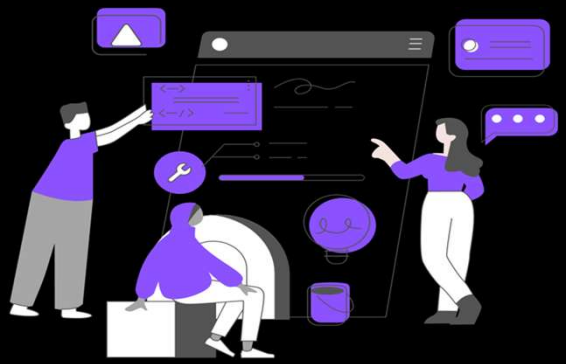

DevOps Engineer

Handles software infrastructure and deployment.
He is responsible for the security and optimization of the system.

Project Planning Meeting

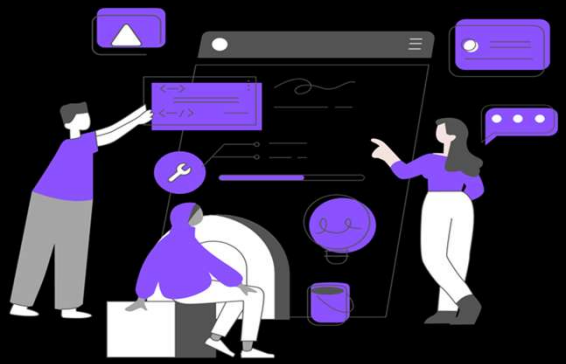

Teams discuss the project and create a backlog. Then socialize the project and indicate what role each person will perform within the project.

- Team introduction
- Roles
- What they will do in the project or Sprint 1 – Backlog Tasks

Project Planning Meeting

Teams discuss the project and create a work plan using future structures and the backlog to indicate what each role will perform within the project.

Socialize the project and each other's tasks out loud in front of the whole group.

- Team introduction
- Roles
- What they will do in the project or Sprint 1 – Backlog Tasks

Project Planning Meeting

Step 2: *Preparation of the Meeting.*

Students create a mini-script of the sprint planning meeting. Talk about:

1. Introduction of the team and roles
2. Product and backlog overview
3. Tasks and dates assignation
5. Sprint duration

Use future tenses
Use Scrum vocabulary correctly

Project Planning Meeting

Step 3: Meeting Simulation
Each team performs the meeting as a video call. Use Zoom, Google Meet, Microsoft Teams or simply record yourselves with a cell phone. (max 5 minutes)

During the meeting, you make sure to:
- Speak English at all times.
- Use phrases in the future tense (will, going to).
- Discuss tasks and deadlines.
- Camera ON all times.
- Find quiet spaces to carry out the recording.

Upload the video and share it before Sunday July 5th (11:59PM).
Check privacy and permissions before sending.

Rubrics

Total: 5.0 points

Criterion	Excellent (1)	Good (0.6)	Needs improvement(0.3)
Use of technical English	☑	☑	✗
Use of future tenses	☑	☑	✗
Backlog tasks	☑	☑	✗
Organization of the meeting	☑	☑	✗
Team collaboration and fluency	☑	☑	✗
