1. Make groups of 3.

Context: You are employees at a tech company. Your task is to create and present a short tour of your office to new interns.

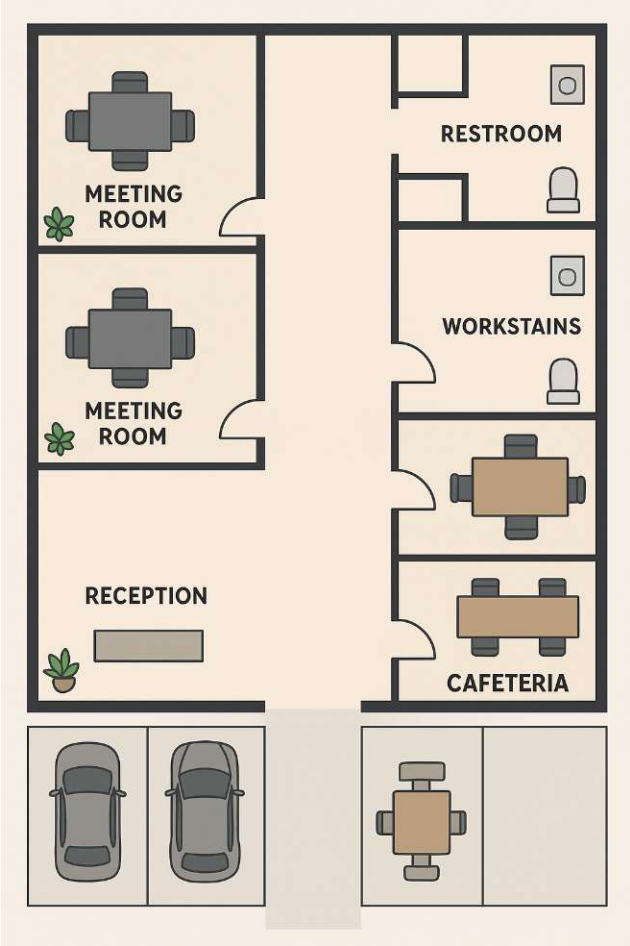

2. Create a simple map of the office using AI, completing the prompt with the specific description of your ideal workspace. Ask the AI to create a map or sketch about the company and one particular office.

Prompt 1: Create a map or floor plan of a company where there are ....., there is a ..... etc. (*mention common areas*)

Prompt 2: Now create a picture of the ..... (office) where there is a ... there are.... (*mention fortinure and tech tools*)

2. Choose roles: one student is the guide (in charge of the intro of the tour); one student describes the common areas in the company, and one student describes a workstation or an office (furniture and tech tools).
